If you would like Medical books to bring specific books on the day, please contact them on **0800463325** or go to their website **[www.medical-books.co.nz](http://www.medical-books.co.nz)**.

## Evidence based practice

The NZGG aims to develop **an evidence-based culture within the New Zealand health and disability sector**. Evidence-based guidelines are published by NZGG.

The latest guidelines added are:

- Suspected Cancer - September 2009
- Management of Early Breast Cancer - August 2009
- New Zealand Cardiovascular Guidelines Handbook: - 2009 Edition -
- Clinical Guidelines on the Management of Melanoma in Australia and New Zealand - November 2008
- Testing for Prostate Cancer: A consultation resource - October 2008

These are **free on the internet** and can be found under <http://www.nzgg.org.nz/>. You can set up an email alert to be notified of new and updated guidelines.

These 2 websites might also be of interest for locating international guidelines:

### National Guideline Clearinghouse (American)

This can be found under [www.guideline.gov](http://www.guideline.gov)

### NHS Evidence - National Library of Guidelines

formerly a Specialist Library of the National Library for Health

<http://www.library.nhs.uk/guidelinesFinder/>

### Held in the Library

The Library has a pamphlet “**Critical appraisal to support Evidence-based Medicine**” outlining the **5 essential steps of EBM** and a guide on **how to appraise research**.

## Journal News

**RN** has ceased publication

**Burns** is available full text online from 2005 onwards

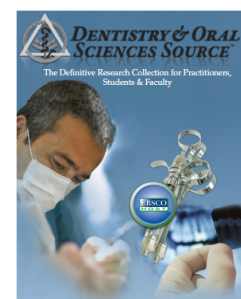

## Current trials
