Coming soon: a new Library catalogue

The Library is about to move to a new library management system, Liberty, which will mean a **new look catalogue on the Intranet**. You will be able to see **when a book is on loan** and when it is due back. More functionality will be coming in the New Year such as being able to **reserve and renew through the Intranet**.

Cochrane Library - the Gold Standard in Evidence-Based Medicine

The Cochrane Library launched a new FREE resource - **the Cochrane Journal Club**. From the latest issue, a key article has been taken and expanded with background information, podcasts, powerpoint slides of key figures and tables and discussion questions. This is the perfect aid to help clinicians and researchers present a paper to their journal clubs.

The Cochrane Journal Club can be found under www.cochranejournalclub.com.

Still on trial

The databases below are still on trial, if you get a chance, have a look and send **feedback to the Library**:

- **Nursing Reference Center**
provides a fast and easy way for nurses and educators to base their decisions on the best available evidence.

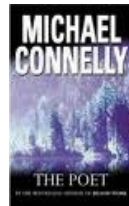

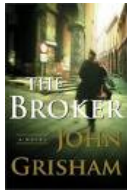

- **ProQuest Public Health**
Designed as a starting point for public health information and research
- **Informit Health Collection** 
Full text online database which delivers cover-to-cover access to core content from the Australasia region.
- **EBSCO Dentistry & Oral Sciences Source**

Summer reading

Come and have a look at our **Summer reading display**. The Library has great collection of fiction books to choose from for the holidays. Be inspired!

Happy Holidays!
